## Saint Louis University Hospital 45 Division of Neurosurgery

## THANK YOU LEAH CUFF, RN!

The six children (and spouses) of Joyce Arnold (along with her dozen grandchildren) would like to express our gratitude to you for securing an appointment time with the renowned Dr. Bucholz so quickly, for scheduling her MRI procedure so expeditiously, and for the amazing blend of professionalism, empathy, and medical skill that you displayed during her appointments.

It also gives us great peace of mind to know that you will be in the OR during our beloved mother's surgery. We have great solace in knowing that the woman who has selflessly devoted her life to each of us is in the hands of those who have selflessly devoted their lives and remarkable skill to saving lives.
